proposed site for new Lawrence public library

PROPOSED SITE — The proposed site for the new public library in Lawrence is shown in top photo taken from the roof of the Eldridge Hotel. The site located between Kentucky and Vermont and 7th and 8th streets is bounded on the south by the police

station and the main fire station along with a city parking lot. Acquisition of the land would include the three houses shown in the bottom photo and at upper left in the top photo. The proposed site includes several vacant lots which at one-time

were used as used car lots. Community Ambulance is now located in the large building shown above at extreme right and below at extreme left.
