**Calls go through TWICE AS FAST
when you keep a list and
CALL BY NUMBER**

For example:

OKLAHOMA CITY
Central 5-2499

You may obtain a personal "Blue Book of Telephone Numbers" at the telephone business office, for listing out-of-town numbers you call. Time is valuable, and when you call by number, you save time. Calling by number is twice as fast! Call or write the telephone business office for your free copy, so that you can keep a list and call by number for fastest service.

TELEPHONE NUMBER PREFIX

The telephone number prefix in Lawrence is Viking, in Clinton it is Riverside, and in Lecompton the prefix is Tulip. For the sake of brevity Viking is abbreviated as "VI", Riverside as "RI", and Tulip is abbreviated as "TU" in directory listings.

HOW TO USE YOUR DIAL TELEPHONE

1. Lift receiver and wait until you hear a "humming" sound.
2. Place a finger in opening where you see the letter "V".
3. Pull dial around until finger strikes stop. Remove finger and let dial spin back freely.
4. Do the same with the letter "I" and the figures "3", "9", "9", "0", and "0".
You will hear the other telephone ring (a "burr-ing" sound) or the busy signal (a buzz-buzz-buzz). Don't hurry! Take your time and dial correctly! Don't Confuse The Letter "O" With the Figure "Zero" or the letter "I" with the numeral "1".
5. If the number you are calling is busy or if you make a mistake in dialing hang up, wait for the dial tone, and dial the number again.
6. For Dialing Numbers in other towns see Direct Distance Dialing Instructions on Page 3.

FACTS ABOUT LONG DISTANCE SERVICE

To assist you in choosing the service to use

STATION-TO-STATION CALLS

- The rates are much lower.
- Station-to-Station calls are usually completed more quickly than person-to-person calls.
- On lower-priced station-to-station calls, you talk to anyone who answers at the called number.
- You may DIAL this type call yourself to many places.
- Generally the initial period of conversation without additional charge is three minutes. The call is timed from the moment the called telephone is answered.
- If you wish to place a call to a point which you cannot dial yourself, dial "Operator" and give her the called town and the called number. (Calls placed to a particular person or to a particular extension number take the higher person-to-person rate.)

PERSON-TO-PERSON CALLS

- You talk to a particular person, or a particular extension of a Private Branch Exchange, such as ext. 711.
- To place a person-to-person call, dial "Operator" and give her the called town, the telephone number or address and the name of the person or department you want. For example, say "Wichita, Kansas, AMherst 2-8798, Mr. John Ford."
- The initial period of conversation is three minutes. The call is timed from the moment you start talking with the called person or with anyone at a called extension telephone.

COLLECT CALLS

- If you wish to have charges billed to the called number, dial "Operator" to place the call. For example, say "Collect Wichita, Kansas, AMherst 2-8798."
- If the called party agrees, the charges will be billed to his telephone.
- The rate for station-to-station calls made collect to some points is higher than for PAID calls.

FOR FASTER LONG DISTANCE SERVICE
DIAL YOUR OWN STATION-TO-STATION CALLS
SEE FOLLOWING PAGE FOR INSTRUCTIONS

RECORDING OF TELEPHONE CALLS

If you hear a short "beep" tone on your telephone about every 15 seconds, it means that the person with whom you are talking is recording your conversation. This signal is provided by the telephone company for your protection. Use of a recorder without recorder-connector equipment containing a tone-warning device is contrary to the Company's tariffs and not permitted. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. When he disconnects, you will no longer hear the "beep" tone.

DIRECT DISTANCE DIALING

Lawrence 1 and 2 Party Customers

Can Dial Many of Their Own Station-to-Station Long Distance Calls

Eight-party customers and customers at coin telephones must dial "Operator" and place their Long Distance calls.

For direct distance dialing, the United States is divided into dialing Areas. Each Area is identified by a code number consisting of three figures. If the city you wish is listed below, dial the three digit Area code shown opposite the name of the city. Then dial the two letters and five figures of the distant telephone number just as you would dial a local call.

For example: To call Hutchinson, Kansas, MOhawk 2-1290, you would dial:
316 MO 2-1290
(Area Code) and (Telephone Number)

If the city you want to call is not listed below, dial "Operator." The operator can tell you if the city can be dialed and give you the information you need to dial your own call.

If you do not know the number of the party you want to talk with in the distant city, dial "Operator" and ask for "Information" in the city you are going to call. There is no charge for this service. When you are connected with the "Information" operator in the distant city, ask for the telephone number you want. After you obtain the number, please write it down for future use. Space is provided for this purpose on the inside of the back cover. If the number is one you can dial direct, hang up and place your call as instructed above.

IMPORTANT

IF SOMETHING GOES WRONG ON A LONG DISTANCE CALL THAT YOU HAVE DIALED* . . .

1. Determine the city and the telephone number you have reached.
2. Hang up, then dial "Operator" immediately.
3. If you make a mistake while in process of dialing, hang up immediately. Then lift the receiver, wait for the dial tone and dial the complete number again.

*Some of the difficulties that may be encountered could be—

Wrong number reached, cut off from the party you called, trouble in dialing, called number changed, or a distant operator reached.

4. Report to the operator the difficulty you have encountered giving her the city and telephone number so you will not be charged for the call.

LOOK!
*no hands needed
 for a
 SPEAKERPHONE*

A tiny microphone picks up your voice leaving hands free to write or refer to records while you talk. Loud-speaker lets you or a group of people hear the caller. Works as a regular telephone, too.

YOU BUILD...
Plan for Built-in
Telephone
Service

Built-in concealed telephone wiring when your new home or office is being built costs little yet gives you completely hidden connections. No unsightly wires on the walls and you can have a telephone outlet in every room.

Just call the telephone business office and ask for "Telephone Planning Service." There's no charge for this service.
