TO ADD VALUE TO YOUR TELEPHONE SERVICE

ANSWER PROMPTLY . . .
When your telephone rings, answer promptly. A delay may cause you to miss an important call.

IDENTIFY YOURSELF . . .
When you answer, identify yourself immediately with some such phrase as "1732" or Smith Department Store." Answering in this manner eliminates needless questioning . . . saves time

WAIT SEVERAL RINGS . . .
When you place a call, give the called party time to get to his telephone from another part of the house, or even from the yard. Wait several rings . . . about a minute.

SPEAK DISTINCTLY . . .
Talk directly to the telephone. Your lips should be about half an inch from the mouthpiece. Use a natural, pleasant voice. Don't whisper. Don't shout.

RECORDING OF TELEPHONE CALLS

If you hear a short "beep" tone on your telephone about every 15 seconds, it means that the person with whom you are talking is recording your conversation. This signal is provided by the telephone company for your protection. Use of a recorder without this signal is unlawful. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. When he disconnects, you will no longer hear the "beep" tone.

FACTS ABOUT LONG DISTANCE SERVICE

To assist you in choosing the service to use

STATION-TO-STATION CALLS

The rates are lower on these

On the lower-priced station-to-station call, you talk to anyone who answers at the number called. To make a station-to-station call:

Call "Long Distance." Give operator name of the town to which you want to talk, and the telephone number, if you know it. For example, say "Memphis, Tennessee, 9-8798," or "Memphis," Tennessee, Mr. John Ford's residence at 197 Court Avenue."

Be sure **not** to specify any particular person, or the number or location of any private branch exchange station (such as Room 711, Hotel Excelsior, or Shipping Department). Such calls take the higher person-to-person rate.

Facts About Station-to-Station Calls

1. Rates are lower than person-to-person calls except on some collect calls where the rate is 25 cents or less. See rate table on inside front cover of this directory.
2. They are usually more quickly completed than person-to-person calls.
3. Generally the initial period of conversation without additional charge is three minutes; on some calls to nearby points the initial period is five minutes.
4. The call is timed from the moment the called telephone is answered.

COLLECT CALLS...

You may reverse charges; that is, have them billed to the called telephone. Simply tell the operator you want to call collect. If the called party agrees to pay the charges, they will be billed to his telephone.

PERSON-TO-PERSON CALLS

You talk to a particular person

On person-to-person calls, you talk for a particular person, or a particular extension, such as "Room Hotel Excelsior." This service assures your getting to talk to the person you want. To make a person-to-person call:

Call "Long Distance." Give operator name of the town, the telephone number or address, and the name of the person or department you want. For example, say "Memphis, Tennessee, 9-8798, Mr. John Ford" or "Memphis, Tennessee, 9-8798, Extension 711."

Facts About Person-to-Person Calls

1. Charges begin when you start talking with the called **person** or with anyone at a called extension telephone.
2. All initial periods are for three minutes. The rate for person-to-person calls is somewhat higher than for station-to-station calls.
3. We will make repeated attempts on the same or a later day to reach the person with whom you want to talk, at different telephones or even in different towns. No additional charge is made for this service.

FOR FASTER SERVICE... CALL BY NUMBER...

If you know the number of the distant telephone, give it to Long Distance. It will speed your call.

**to the best party-line
telephone service**

Help yourself? Of course! You can get the greatest value from a party-line telephone by doing a few simple things:

1. Remember to hang up quietly if the line is in use when you try to call. Wait awhile before trying again.
2. Keep your calls as short as possible. That gives the other fellow a chance to make or receive calls.
3. If you have children, teach them party-line telephone courtesy.

Your skillful and considerate use of your party-line telephone will encourage others to do the same. Result: Best service!

Your long distance calls
go through faster
when you call by number,
like this...

Keep a list of the out-of-town telephone numbers you are most likely to call. Then, save time by giving the operator the number when you call long distance.

If you want to talk to a certain person, give the operator his name, as well as the number, when you place your call.

**Your call will go through faster
...often twice as fast!**
